

On Saturday 12 September representatives from the club gathered at the new Linear Park Kings Hill, Mark Watson's son Luca was also in attendance.

When the Hudgell family arrived, after introductions, especially the two children, we asked young Luca to present the KHWCC jersey to Tony.

Tony was so very pleased with his jersey, he immediately took off his Tshirt and on went the jersey!! So much so that Mum had to wash it Saturday evening in order that he could wear on Sunday!

It was lovely to have young Luca with us because he and Tony got on like a house on fire. Luca came along with his balance bike, Tony was very keen to try it, so Mark showed Tony how to use it and he promptly asked his Mum and Dad if he could have one for his birthday. He did very well too.

He is a very brave and tenacious little lad, he was curious about the Jersey, wanting to know the names of the sponsors. He was particularly pleased that David Lloyd was on the back and front of the Jersey. I think he has swimming lessons with DL.

His Mum and Dad were very pleased with the cheque donation too.

The Evelina Childrens Hospital, Westminster is the hospital that saved Tony's life, hence the donation. It is affiliated with St. Thomas' and Guys Hospitals.

I believe everyone had a lovely time in the new park!
